

# TREE CAMPUS HEALTHCARE

CELEBRATING LEADERSHIP IN WELLNESS AND COMMUNITY ENGAGEMENT THROUGH TREES

Congratulations to the healthcare facilities across the country that received recognition through the Tree Campus Healthcare program. Thank you for investing in trees to improve community wellness.

**17** STATES

**50** RECOGNIZED FACILITIES

**2,047** TREES PLANTED

## PROGRAM SPOTLIGHTS

Aspirus Health’s hospital campuses set the stage for the exceptional care they deliver to their patients. This was exemplified in 2023, when they expanded rapidly from one recognized Tree Campus Healthcare to 15. Aspirus Health’s commitment to sustainability and environmental stewardship shone through their collective efforts during their Earth Month celebration, when several campuses worked together to achieve Tree Campus Healthcare standards. Together, they’re helping grow a healthier world for all they serve.

**CHRISTUS Mother Frances Hospital** in **Tyler, Texas** is committed to the health of their patients and community. Beyond being a recognized Tree Campus Healthcare, they teamed up with Texas A&M Forest Service to distribute 2,000 free trees to Tyler residents. Arborists were on hand at the distribution event to help locals pick the right tree and understand where and how to plant it. Their leadership in environmental initiatives and the community is creating a healthier Tyler for generations.

**33** Community hospitals

**7** University hospitals

**2** Children’s hospitals

**3** Residential care facilities

**2** Veteran’s hospitals

**3** Psychiatric hospital
